

## **THE MEASURING GUIDE**

Pens at the ready

**BROOK + WILDE**

## Will it fit?

We all get a little carried away whilst dreaming of the perfect home.

An optimistic guess here, a forgotten twist of a staircase there, our imagination can be powerful. We so want it to work.

But come delivery day, your spaces may tell a different story.

So let's make sure something you love on the website looks even better as part of your life. For that we'll need just a moment to pause.

It's time to fish out that measuring tape.

## Ready? Let's begin!

Don't forget our customer experience team are here to help every step of the way.

Call us: 08081699070

Email us: sales@brookandwilde.com

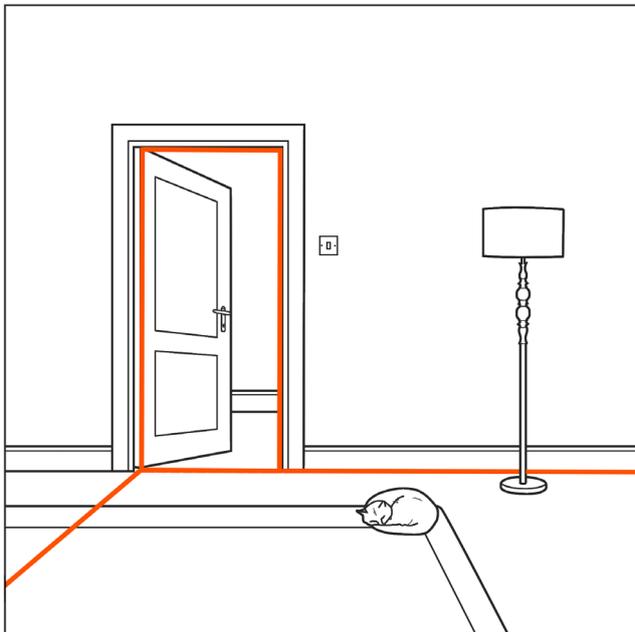

## FRONT DOOR

Open the door as wide as it can go and then measure – at the narrowest point – from the outer edge of the door to the inner edge of the door frame.

Door width: .....

Door height: .....

## HALLWAY + INTERNAL DOORS

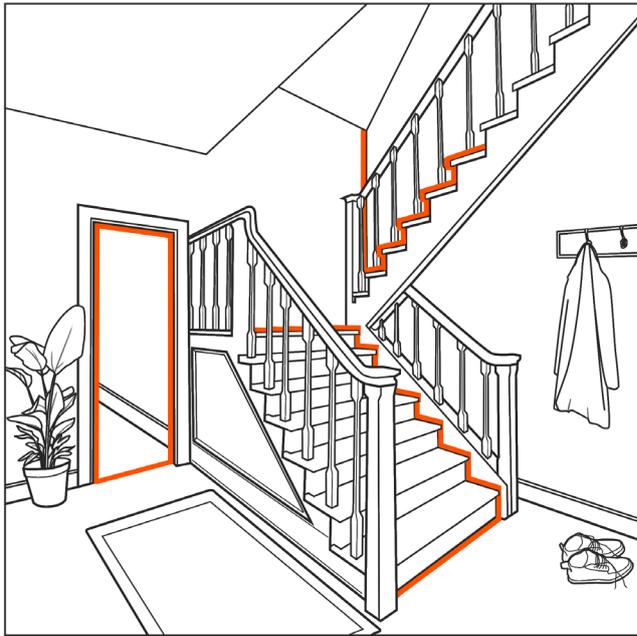

Measure the width of your hallway at its narrowest point. Ensure that you consider any shelving, radiators, light fixtures, or handrails in the measurement.

Additional internal doors should also be measured and consider the space inside and outside the room for manoeuvring.

Door width: .....

Hallway width: .....

Door height: .....

## STAIRS + LANDING

Measure the width of your stairs at their narrowest point. Remember to consider handrails and immovable light fixtures!

If you have a bannister and our team need to lift it over, measure the distance between the bannister and the ceiling, ensuring it is greater than the depth of the sofa at the narrowest height.

If there's a landing then make sure you measure the width, depth, and height.

Landing width: .....

Landing height: .....

Landing depth: .....

## Final thoughts

Wherever you live and whatever the challenge, our delivery teams draw on their experience to handle even the most complicated deliveries. Twenty story blocks of flats? Narrow winding staircase? Low ceiling? If it can be done, we'll do it.

Our team are fully trained to lift, manoeuvre, and install all our furniture with care and expertise, taking care to protect your home as they work. They also install and remove all packaging, leaving your home tidy.

That's it! We hope this gives you the confidence to order something sensational for your home.

We're sure that if it fits, you'll love it!
